THE MAKING OF HAWKINS PRESSURE COOKERS

Hawkins Cookers Limited has been in business since 1959. Today, it has two offices, three factories and about 600 persons working. It has exported its products since 1974 to various countries in each of the 6 continents of the world.

Hawkins has sold over 110 million pressure cookers and cookware worldwide. All Hawkins pressure cookers are listed by Underwriters Laboratories, USA.

The Hawkins Company is well known for not compromising on quality and for continual product innovation. The most thorough research and development, the most careful selection of materials, the best manufacturing practices and the strictest quality control – all go into making pressure cookers which are trusted by millions of consumers.

Every cooker is tested to be leak-proof. Along with the superior pressure regulating system, this ensures that Hawkins cooks

quickest. Millions of Hawkins users will tell you that, properly used, a Hawkins gasket will last for years. You do not have to trouble yourself with frequent repairs or replacement of parts. Most important, you are perfectly safe with a Hawkins.

In the time that it has taken you to read the Hawkins story, ten consumers like you have each bought a Hawkins pressure cooker somewhere or the other in the world!

THE WIDEST RANGE OF COOKWARE FOR ALL YOUR COOKING NEEDS

The designers of Hawkins and Futura Cookware have spared no effort to provide you with the best possible cooking experience.

Our Cookware is presented in seven types: Futura Hard Anodised, Futura Nonstick, Futura Cast Iron, Hawkins Tri-Ply Stainless Steel, Hawkins Sandwich Bottom Stainless Steel, Hawkins Pressure Die-Cast Aluminium and Hawkins Ceramic Nonstick Cookware.

Each pot or pan is made from heavy gauge, commercially pure material for even heat dispersion and steady heat retention.

The cooking surface of the stainless steel pans is made of food-grade stainless steel. Futura Cast Iron is made of iron. The other pans are given a technologically advanced surface coating, to give you a superb cooking surface.

Sturdy, comfortable, stay-cool handles form part of all our Cookware using the finest materials in rosewood, plastic, stainless steel or silicone

handles (except for a few cookware). The handles stay fixed permanently. Where required, the cookware comes with custom-designed lids of stainless steel, glass or hard anodised aluminium, either included in the product or as an option at extra cost.

Each Cookware item is tried out thoroughly in the Hawkins Test Kitchen before the specifications are approved and manufactured under strict quality control. Each piece is individually packed in a strong, attractive carton designed for protection in transit and sales appeal. An Instruction Manual with tested recipes comes free in each carton (except for a few cookware such as the Tadka Pans, Ezee-Pour Saucepans and TPans).

Futura Cookware and Hawkins Cookware are designed, quality controlled and manufactured or marketed by Hawkins Cookers Limited.

Please see the details of models, sizes and prices of these different types of cookware in the pages that follow.

FUTURA CAST IRON

Cast iron is made from iron heated to over 1200 degrees centigrade, with many wonderful properties for cooking:

- Retains heat well, easy to cook in. Certain foods will brown better, cook faster and crisper, and cook more evenly inside and out
- No coating – Naturally nonstick, healthy, tasty, crispy food
- Rough and tough – Can use high heat, metal ladles
- Pre-seasoned with vegetable oil – Will not rust with regular care
- The more you use it, the better it gets! The cast iron pan gets seasoned with more use, becoming smoother and tougher
- Versatile – It may be used on gas cooktops, in the oven, on a grill or a *chulha*. Do not use on induction unless specifically recommended by the manufacturer of the induction cooktop

3. Extra thick, black metal spreads heat evenly, is more durable
4. Lasts longer than ordinary nonstick
5. Guaranteed for 2 years

FUTURA TAVA (GRIDDLES)

HARD ANODISED TAVA

- Up to 6.35 mm extra thick, black metal heats fast and evenly, no hot spots
- Stay-cool handles in metal or plastic stay firmly fixed with strong rivets
- Rivets 'splayed' to maximise cooking surface

DIAMETER (cm) & THICKNESS (mm)	PRODUCT CODE	MRP (₹)
22 cm, 4.06 mm	AT 22	790
24 cm, 4.88 mm	AT 24	975

28 cm, 4.88 mm	AT 28	1210

HARD ANODISED ROTI TAVA

New

- Designed for making perfect Rotis – on gas or induction
- 4.88 mm extra thick metal heats evenly, stays flat even after heavy use, to maximise contact on induction cooktops

DIAMETER (cm) & THICKNESS (mm)	PRODUCT CODE	MRP (₹)
24 cm, 4.88 mm	IART 24	1090
26 cm, 4.88 mm	IART 26	1210
28 cm, 4.88 mm (PH)	IART 28	1390

HARD ANODISED FLAT TAVA

- Unique design – for the perfect Uttapams and Pancakes
- Useful when spreading liquid batter – helps retain the shape more evenly
- The rim contains batter and cooking oil better, with less spillage and greater safety

DIAMETER (cm) & THICKNESS (mm)	PRODUCT CODE	MRP (₹)

FUTURA DEEP-FRY PANS

FUTURA HARD ANODISED DEEP-FRY PANS

DEEP-FRY PANS (FLAT BOTTOM)

- 3.25 mm / 4.06 mm extra-thick hard anodised base and walls heat fast and evenly
- Flat bottom allows for greater stability on gas, use on electric or halogen cooktops (and induction for some models). Cook and serve in the same pan
- Strong, stay-cool, riveted, natural rosewood handles are firmly fixed, comfortable and safe for handling heavy, hot loads of oil and food
